

North Carolina's only hygiene bank.

Dedicated to reducing hygiene insecurity, The Kindness Closet provides basic hygiene essentials not covered by any government services.

Kindness Closet

What we do:

Currently, more than one-third of our neighbors are struggling to afford life's everyday essentials - items like shampoo, deodorant, soap, laundry detergent and feminine hygiene products - none of which are covered by government assistance programs. Often they silently suffer with this hidden and highly stigmatized crisis. As North Carolina's only hygiene bank, the Kindness Closet is working everyday to remove barriers to essential hygiene for our neighbors who are struggling to afford their most basic needs.

Mission

The mission of the Kindness Closet is to support the dignity and health of vulnerable populations in North Carolina by providing basic hygiene products not covered by government assistance.

The Kindness Closet also provides engaging service opportunities for local volunteers, thereby creating a more compassionate community.
